**DETAILED ACTION**

***Response to Amendment***

1. Receipt is acknowledged of the Amendment filed October 03, 2003. The amendment includes cancellation of claims 55-58 and addition of new claims 64-70.

***Allowable Subject Matter***

2. Claims 54 and 59-70 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Ohwa et al. (US 5,850,079); Imai et al. (US 6,446,872) taken alone or in combination of other references, does not teach or fairly suggest the claimed motorized card reader module comprising, among other things, a sweeping arm including a hook portion and the hook portion further including a cutting mechanism for cutting a non-card obstruction in the throat portion and a first sensor to detect if the cutting mechanism is damaged. The cited prior arts disclose a card reader module comprising a card-inserting portion, a shutter for preventing insertion of a foreign matter and a detecting means to determine the condition of the shutter. However, neither Ohwa nor Imai shows the claimed sweeping arm including a hook portion to catch a foreign matter, to maintain the foreign matter in a recessed area, and to drag the matter to a side of the inserting portion. Accordingly, one of ordinary skill in the art would not have been motivated to modify teachings of prior art to meet the claimed limitations as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
